1. Organisation Overview

Charcoal Aluminium is a business that specializes in the manufacturing, supply, and installation of aluminium windows and doors. The company focuses on producing high-quality charcoal-coloured aluminium products that are modern, durable, and suitable for both residential and commercial buildings.

The business aims to provide stylish and strong aluminium solutions that improve the appearance and security of buildings. Charcoal Aluminium offers services such as sliding doors, folding doors, casement windows, shopfront installations, and custom aluminium designs.

Creating a professional website will help the company promote its products, reach more customers, and provide easy access to information about its services.

Vision

To be the preferred choice for modern, durable, and stylish aluminium windows and doors, making homes and businesses more attractive, secure, and functional.

Mission

- Deliver high-quality aluminium products that combine strength, style, and durability.
- Provide reliable, professional installation and exceptional customer service.
- Offer custom solutions that meet the unique needs of each client.
- Use sustainable practices and materials to ensure long-lasting results.

Target Audience

- **homeowners** who want modern, durable, and stylish aluminium windows and doors to enhance the look and security of their homes.
- **Property developers and builders** looking for reliable aluminium solutions for residential and commercial projects.
- **Business owners** who need high-quality shopfronts, office doors, or custom aluminium installations.
- **Interior designers and architects** seeking bespoke aluminium products that complement their designs and meet specific project requirements.

2. Website Goals and Objectives

The main goal of the Charcoal Aluminium website is to establish an online presence for the business and attract new customers.

The objectives of the website include:

- To showcase aluminium windows and doors products.
- To provide information about the company's services.
- To allow customers to request quotations online.
- To display previous projects and installations.
- To make it easy for customers to contact the company.
- To improve the company's credibility and brand awareness.

Key Goals

- Increase brand visibility and establish Charcoal Aluminium as a trusted aluminium solutions provider.
- Generate high-quality leads through online quotation requests.
- Promote products and services effectively to both residential and commercial clients.
- Build customer trust by showcasing completed projects and client testimonials.
- Improve user engagement and ease of communication through the website.

Key Performance Indicators (KPIs)

- **Website Traffic:** Number of visitors per month.
- **Lead Generation:** Number of online quotation requests submitted.
- **Conversion Rate:** Percentage of website visitors who request a quote or contact the company.
- **User Engagement:** Average time spent on the site and pages visited per session.
- **Project Showcase Effectiveness:** Number of project page views or downloads of case studies.
- **Brand Awareness Metrics:** Social shares, website mentions, and search engine visibility.

3. Current Website Analysis

Strengths

- High-quality products that are modern, durable, and stylish.
- Wide range of services, including sliding doors, folding doors, casement windows, shopfronts, and custom aluminium solutions.
- Established reputation through satisfied customers and referrals.
- Local presence through social media and community advertising.
- Ability to provide bespoke solutions tailored to customer needs.

Weaknesses

- Lack of an official website limits online visibility and reach.
- Heavy reliance on word-of-mouth and social media for promotion.
- Customers cannot easily view products or services online.
- Limited ability to generate leads or process customer inquiries efficiently.
- Risk of losing customers to competitors with a stronger online presence.

Areas for Improvement

- Develop a professional website to showcase products, services, and completed projects.
- Enhance online presence through SEO, social media integration, and digital marketing.
- Implement online quotation requests, contact forms, and other customer interaction tools.
- Highlight completed projects and client testimonials to build credibility.
- Provide educational content about aluminium solutions to attract potential customers.
- Maintain consistent branding and messaging across all online and offline channels.
